MACULART^{meeting} PARIS - 2025

SYNOPTIC PROGRAMME
DATED 04/17/2025

29-30 JUNE & 1ST JULY 2025

Highlights of Maculart International 2025

Cutting-Edge Imaging Techniques:

Dive into the latest advancements in imaging, including OCT angiography and other revolutionary technologies.

Breakthrough Treatments:

Explore new therapeutic approaches, including gene therapy, for conditions such as age-related macular degeneration (AMD) and diabetic macular edema (DME).

Preventative Strategies:

Engage in dynamic sessions focused on preventing macular diseases and preserving vision.

Surgical Innovations:

Discover the latest surgical techniques and their transformative impact on patient outcomes.

Networking Opportunities:

Connect with leading specialists and researchers, fostering invaluable collaborations and the exchange of groundbreaking ideas. These moments of exchange are crucial, as interacting with friends can significantly boost our creativity and innovation.
