MACULART MEETING

INTERNATIONAL / PARIS 2027

HIGHLIGHTS OF THE MACULART INTERNATIONAL MEETING 2027

- **Artificial Intelligence:** exploring the growing role of AI in retinal imaging, diagnosis, disease monitoring and clinical decision-making.
- **Innovative Imaging:** discovering the latest developments in retinal imaging and the new perspectives they offer for understanding and managing macular diseases.
- **Innovative Treatments:** discussing emerging therapeutic strategies and the latest advances transforming the management of macular diseases.
- **AMD, Geographic Atrophy and Prevention:** addressing current challenges and future perspectives in age-related macular degeneration, with a particular focus on geographic atrophy and prevention.
- **Diabetes and Vascular Disorders:** exploring advances in the diagnosis and management of diabetic and vascular macular diseases.
- **Myopia and Surgery:** examining the evolving challenges and innovative approaches associated with myopia and macular surgery.
- **Out of the Box:** opening the discussion to emerging ideas, unconventional perspectives and innovative concepts beyond established boundaries.

REGISTER NOW!
